

AI-900: AI Fundamentals

Change Log

Last updated: February 2023

Purpose

This document highlights the significant changes to the <course number and name> course from the previous release. This document is for Microsoft Certified Trainers and Instructors to use before they deliver the class or during preparation for teaching the class.

This is not an error log or a supplement to the Course Materials. This document just provides additional context so that you can understand the major changes to the course content. Most of the course materials have been updated to fix typos, broken links, and formatting. So, we recommend you always download the latest copies.

✓ Please read the Trainer Prep Guide which provides the overall strategy for implementing this training.

February 24, 2023 – Added Azure OpenAI module

Update: **Minor**

Type of change: **General**

Content

- Added a module to the Microsoft Azure AI Fundamentals: Get started with artificial intelligence Learning Path. The new module is: Introduction to Azure OpenAI Service <https://learn.microsoft.com/en-us/training/modules/explore-azure-openai/> . This content is not included in the exam.

January 24, 2023 – Added Infographic

Update: **Minor**

Type of change: **General**

Slides

- Added an infographic to AI-900's Github detailing how an Azure API works. <https://aka.ms/api-infographic>. The infographic is referenced in the *Explore Fundamentals of Artificial Intelligence* slides 10 (in the notes) and 14.

December 6, 2022 – Updated Trainer Prep Guide

Update: **Minor**

Type of change: **General**

General

- Updated to the latest version of the Trainer Prep Guide template.

Content & Slides

- The AI Demos website was decommissioned for a time period and then reinstated. Since the product owners are not sure if they will continue to host the website in the future, references to the AI Demos website on Learn and in the slides have been removed.
